Knights of Pythias.

The Eureka Sentinental says "Beatific Lodge No. 7, Knights of Pythias of this place, are very busy at the present time making arrangements for the reception of the Grand Lodge of the State of Nevada which will meet there on Monday, Aug. 6. Advice from different portions of the State say that a full representation will be present from each subordinate Lodge, and as the order has been increasing very rapidly during the past year the number of delegates at this grand Lodge will be much larger than ever before. It is expected that not less than 60 delegates will be present, and as this is the first time the Grand Lodge has met in Eureka, Beatific No. 7 will put forth every effort to make the visit an enjoyable one. The programme mapped out for the occasion will embrace a parade Monday forenoon, a banquet in the evening and a grand uniform ball on Tuesday evening. All the arrangements for the ball are in the hands of competent gentlemen who have had much experience in this line and the ball will undoubtedly be the event of the season. All in all, we can assure the visiting Knights that they will be right royally entertained on the occasion of their visit to the base range."

A Relic of Bygone Days.

The bell rung by the San Francisco Vigilance Committee in 1837 hangs in the belfry of the Baptist Church at Petaluma Cal., which purchased it in 1858. During the war the Unionists of the town rang it after every Union victory, much to the annoyance of those who sympathized with the South. One night the latter took the bell from the belfry and carried it off to a public store. It was recaptured and rang with renewed vigor. Next morning it was found broken. It is now shown to visitors as a relic of old California days.

An Easy Running Government.

A correspondent thus describes the situation at the National capital: All the members of the Cabinet are out of the city, and the various departments are being run by subordinates. The wheels, however, manage to revolve. At present Mr. French is Acting Secretary of the Treasury, Admiral Nichols of the Navy, John Tweedale of the War, Mr. Hozen as Postmaster, General John Davis Secretary of the Interior. There is no one filling the Presidential position at present.

The Central Pacific has been assessed at \$16,000 per mile in Washoe and Eureka, and it is understood that Lander and Humboldt will do the same. Elko's Assessor will place it at \$12,000. Churchill and Lyon will probably tax it at \$10,000. If these figures are sustained by the Equalization Boards the State roll will be increased more than a million dollars. The company wants to compromise on \$10,000 per mile throughout the State.

We are in receipt of the second number of "Music and Drama," a weekly publication recently started in San Francisco by J. W. Currier and Frank S. Mosher. The paper, as its name indicates, will be devoted to the interests and advancement of music and the drama on the Pacific coast; and we are pleased to learn that its proprietors are meeting with gratifying success.

There is some style about the Southerners after all, and the "bloody shirt" seems to be buried. Louisville is now one mass of flaunting flags, both in the business and residence portions, and the portraits of Lincoln, Garfield, Grant and Arthur, greet one on all hands. We hope the Exposition will be a complete success.

John H. Dennis has again become a partner in the Tuscarora Times-Review, and the old flag of Fairchild & Dennis floats a the mast-head.

The New York World seems to think the Hawaiian Kingdom is going to pieces. What will poor Daggett do then.

The Senatorial election in New Hampshire is still undecided. Nothing like making haste slowly.

Dorsay should not let his angry passions rise.

He Was a Knight of Pythias.

Information was received in Salt Lake, July 30th, of the "standing-up" by road agents of Leon Rivers, a traveling man, who was on his way in from the Yellowstone Park through Beaver canyon. They made him throw up his hands and then tied him to a wagon wheel and went through his pockets, taking his watch and money. They kept him under guard over night, and on discovering that he was a member of the Knights of Pythias, released him, returning him his money and watch and telling him he was not the party they were looking for and that they regretted his capture. They said they were looking for Eastern fellows traveling that way who had money to spare.

Pleasure Excursion.

On August 1st the managers of the leading newspapers of the country in the Association Press will go to the Yellowstone National Park by invitation of President Villard of the Northern Pacific Railroad. They start from and return to Chicago. It is expected they will meet the Presidential party in the Park about August 15th, and return with the latter to Chicago.

A Country Newspaper.

The following from the Chicago Tribune takes in the entire situation of the country newspaper:

What tells so readily the standard in a town or city, as the appearance of its paper? And its youth or its age can as well be determined by a personal notice. The enterprise of its citizens is depicted by its advertisements, their liberality by the looks of the paper. Some papers show a good, solid foundation, plethoric purses, and a well-to-do appearance generally; others show a striving to contend with the grasping thousands around them, trying to wrench out an existence from the close-fisted community around them. An occasional meteoric display in its columns of telegraph or local, or of editorials, shows what it can do if it had the means; but it cannot continue in its expensive work until support comes, which ought to be readily granted. A newspaper is like a church. It wants fostering in the commencement and for a few years, and then, as a general thing, it can walk alone, and reflect great credit on its location. Take your home paper. It gives you more news of immediate interest than New York or other papers; it talks for you when other localities belie you; it stands up for your rights. You always have a champion in your home paper, and those who stand up for you should certainly be well sustained. Your interests are kindred and equal, and you must rise or fall together. Therefore, it is to your interest to support your home paper; not grudgingly, but in a liberal spirit; as a pleasure, not as a disagreeable duty; but as an investment that will amply pay the expenditure.

Confederate Bonds.

The Philadelphia Times says: The Confederate Bond scheme proclaimed by the New York Herald is an old story in our columns, but the speculation itself is one of the most impudent schemes, to which English investors are such ready victims. Turkish and South America bonds are solidly themselves, compared with this vaporous speculation. The projectors do not hold the idea that the United States will ever pay Confederate bonds, but they pretend to believe they can bring some sort of moral or commercial pressure to bear upon the individual States to induce them to pay something to wipe out their collective indebtedness. Considering that some of the late Confederate States do not even honor their own particular bonds, the notion that they will take upon themselves the debt of the broken Confederacy is wildly visionary. That such a scheme should get a hearing can be accounted for only by denegation of American affairs.

President Arthur betrays an honorable and proper aversion to taking his pleasure at the taxpayers expense. When it was announced that he contemplated a visit to the Yellowstone next month, it was alleged that scores of horses were to be specially provided for his party, and that the trip would cost the Treasury thousands of dollars. The truth, however, is that the President's jaunt will involve no extra expense whatever. He has merely accepted an invitation to join an exploring party which General Sheridan had arranged to lead through this region, without reference to the President's participation, and the trip, like the one which the General took last year, will be well worth what it cost in observations taken by the scientific members of the party. In short, there is no foundation for the charge of a junketing expedition. The President has earned the right to a good vacation, and the whole country will wish him a pleasant time in his explorations of the Yellowstone wonderland. — Frank Leslie's.

The most healthy and popular drink of the season is the ice cold soda water sparkling with purest gas and flavored with true, delicious fruit syrups, to be had only at Queen's soda fountain.

A novel pastime is in preparation for the Viennese public. Mr. Henri Burkhardt has brought from the colony of Victoria thirty kangaroos for the purpose of a royal hunt. The Prater is the locality selected, and dogs and horsemen will be engaged in the sport. Some of the kangaroos are of great height and proportionate strength, and will give the Austrian hounds that may be courageous enough to tackle them considerable trouble. The animals have already arrived, and are now at Naples.

THOSE WOMEN FOLK.

How Hard-Headed Men Estimate
Some Things Which They
Don't Understand.

Anybody who has led a domestic life knows how common such things as the backache, and pains in the chest, are among the women who do the work. Often—and perhaps generally—the distresses are borne without much complaint. The women get about, and the machinery of the house goes on. Beyond this, those coarse-grained animals whom New England women call "the men folks," seldom look so long as their wives or daughters are not actually in bed, under the doctor's care, the average thick-skinned husband and father gives the subject no attention. At the same time the poor household drudges—who deserve a better fate—creep around, broom or utensils in hand, up stairs down stairs and out-of-doors, doing that woman's work, which "is never done." Losses of loved wives and fair girls lower whose suddenness and unexpectedness astonish those wooden-pated husbands and fathers—fall, seemingly out of a clear sky, and form the logical sequel to the story of neglect.

Now, you men who stand at the heads of ten thousand such homes, allow us to drop a word in your receptive ears. If these women of yours are worth having, they are worth saving. That back-ache—that pain in the chest! What are they but indications of some organic trouble of the kidneys, the heart, or the lungs? End it at once by the application of BENSON'S CAPSINE POROUS PLASTER. It will soothe that nervous distress, drive away that pain, banish that dull, weary back-ache, give new strength to the body and fresh hope to the heart. No other plasters will do this. The Benson's Plaster, however, is not made to sell but to heal. It is a remedy which never broke its promise—and never will.

Your druggist has it. But before paying your 25 cents and putting the plaster in your pocket, look for the word CAPSINE cut in the middle.

IN AND OUT OF TOWN.

What is Being Said and Done in a Small Way.

Miss May Cara left for San Francisco yesterday.

Senator Marker returned yesterday from his trip to Sierra valley.

M. T. Barnett will display a fresh lot of vegetables this morning.

State Printer Harlow is now at work on the seventeenth Nevada Report.

Hook Mason came in from the eastern part of the State yesterday morning.

An insane patient named Lane died at the Asylum yesterday and will be buried to day.

The people of Winnemucca have adopted a code of laws for the government of that town.

Trains on the C. & C. road now run through to Independence, the present terminus of the road.

Judge Leonard and wife, who have been visiting in Reno for several days, returned to Carson yesterday.

Steamers plying on Lake Tahoe are required by Government officials to keep a licensed pilot on board.

Norton's team left the depot yesterday morning with a load of freight for the Pyramid Mining Company.

H. H. Bancroft, the historian, and wife, who have been stopping in Reno a few days, went West yesterday.

Mrs. Jerry Schooling and daughters went west yesterday morning on a month's visit to friends in San Francisco.

The annual meeting of the stockholders of the Alta Mining Company will be held at San Francisco on August 16th.

A dilapidated brake on the baggage car detained the west bound overland at this station an hour yesterday morning.

Bishop Whitaker, who for the past month has been traveling through the eastern part of the State, returned home Tuesday.

Among the overland passengers yesterday morning was a number of Sir Knights on their way to the Grand Conclave.

Sheriff Emmitt is making out a new license list. It seems that the county has not been receiving the proper amount of license.

The Deacons of the Baptist Church should see that the dead cat is removed from in front of the church edifice before the Sunday service.

Peter Cavanaugh, Jr., of Carson, went to San Francisco yesterday with the view of locating in that city. He has been offered a situation in a wholesale house.

S. E. Ewing, Postmaster at Lakeview, Washoe Valley, says he has received no notice of the discontinuance of the Lakeview office. He is in full blast as usual.

M. Nathan, the popular clothier, was smiling all over yesterday, and "set on up" for his friends quite liberally. If you want to know the reason why, look at an item under the head of born.

Hon. H. J. McKusick, United States Postal Railway Superintendent, has completed arrangements with Superintendent Yerington for a postal car on the Carson & Colorado Railroad. It will be fitted up at the Carson shops.

The attention of the City Marshall is called to the dangerous condition of the two vacant houses on the corner west of McFarlin's shop. They provide a convenient rendezvous for Indians and tramps, and are liable to be set fire to at any time.

SLIGHTLY IMPROBABLE.

An Idaho Horse With Hoofs Seven Feet Long.

A story comes from Cassia county, Idaho, of an equine wonder which is an agreeable change from the Summer snake yarns. Some men who were hunting stock found the horse. They observed that when chasing the animal up hill, when pushed close, it quickly turned down hill, and, instead of taking its regular motion, its gait resembled that of a man going down a steep descent on snowshoes. Their curiosity being aroused, they persistently followed him for two days, his fleetness keeping them at a distance until nightfall of the second day, when they got sufficiently near to bring him to the ground with a well aimed shot from a rifle. An inspection of this wonder revealed the fact that its hoofs measured the almost incredible length of seven feet. The body otherwise resembled that of a perfectly formed horse. Had the men taken the horse alive Barnum would have given a small fortune for the animal.

How He Got Well.

The Doctor had spent three terrible nights of anxiety over the bed of the sufferer. The boy's father had not slept since the accident.

"Will his leg have to come off?"

"Yes," replied the doctor, sorrowfully, "and even then his life may not be spared."

Just at this juncture strains of inspiring music was heard on the street.

"What is that?" asked the pale-faced hero of last week's boiler explosion.

"'Tis the band of Callender's Minstrels."

"What! are they coming to town?" inquired the boy with drops of sweat still glistening on his brow.

"Yes, in five days," responded the good man of science.

"Well, then, for four days, I shall suffer enough to kill two men, but on the fourth day I shall be at Callender's Minstrel show if crutches and money can get me there. So, doctor, you may run home and rest for a week. I must go to sleep and get well. Ta, ta, sweet doctor! gentle nurse! indulgent mother! much-humbled father! I prithee get the gone, and leave me to my dreams."

Our Mineral Product.

The report of the mineral resources of the United States is now in press, and will shortly be published. From advance proofs the following totals of the productions of the more important mineral substances for six months of 1883 are taken: Gold and silver product, estimated: 16,250,000 gold, \$12,340,000 silver, rate of production being assumed to be the same as 1882, copper, estimated 58,000,000 pounds, worth at the average price in New York 13.65 per pound, \$8,000,000; lead, estimated at 70,000,000 pounds, worth at the average price \$90 per ton; 6,300,000 zinc, estimated at 18,000 net tons, worth on an average value, 4 1/2 cents per pound in New York, \$1,695,000; quicksilver, 22,745 flasks, 1,730,610 pounds, worth at the average price, 4 1/2 cents per pound, \$913,213; salt, 3,206,186 barrels, 89,773,290 pounds worth \$214,070. Resume of the metallic and non metallic mineral substances produced in the United States in 1882: Metals, \$219,756,004; mineral substances, \$226,156,402 Totals, \$445,912,406.

A Grand National Baby Show.

Bring out all the little babies. It is a beautiful vision on the public streets when John Robinson comes to town with his Ten New Gigantic Shows which he has bought and combined for his grand forty-ninth annual tour, to see the little ones clap their tiny hands and shout with delight at the numerous little ponies with their monkey riders come along. It is almost as much pleasure to witness their happiness and enjoyment, as it is to see the grand parade. There is no race of people on earth that so enjoys the circus as the Americans. The circus is peculiarly an American institution, and if they were to be banished from the country for a few years, there would be more tears of sorrow shed from the wee'st toddler to the oldest man living, than there would be for the death of the most noted men the world ever knew. But old babies, and little ones, too, don't let it worry you, but rather weep tears of joy and happiness, for the John Robinson show will surely come to Reno, August 9th.

DOCTOR JEWETT.

An Oakland Prodigy Who Accurately Foretells Future Events.

Oakland society would die of stagnation if it did not occasionally produce within its limits some unaccountable wonder. The latest is an old man named Jewett, whose success in foretelling future events has made him the "observed of all observers," in that "lodging house" by the sea. He carries documents to show that he foretold the assassination and death of President Garfield, and many other momentous events. All his predictions relative to recent local events have been singularly accurate. His success thus far has led Oaklandites to reflect upon some of his prophecies not yet fulfilled. The Dr. says this country is to have a great business depression within a year, with innumerable failures, strikes and demands made by the poor; who are about to inaugurate a stupendous revolution against the exactions of the rich. Within two years Ireland will be free, Victoria will be dead and will have no successor. Wales will never be king; Canada will be free; Australia will be independent and the East Indies will again be fighting for liberty. This glorious country is to be racked in the jaws of discord bordering on civil war; from which it will emerge as bright as a Carson dollar and as tranquil as a tub of molasses. While some may deem all this improbable, none will say it is impossible.

Wonders at Hayden Hill.

The last edition of the Adin Argus goes into extacies over the recent wonderful discoveries in a granite mine at Hayden Hill. The loose rock and dirt taken from the vein is worth \$5 a pound, and one man alone is taking out \$2,000 a day. The fabulous statement is made that a sheet of solid gold, an inch in thickness, extending several rods in every direction, has been uncovered. The mine has been valued at \$600,000, but to-day could not be purchased at any price.

Rather be Exposed.

Somebody put a small mud turtle, about the size of a silver dollar, in a bed at a Carson hotel, and a man who was assigned to that room, on preparing to retire, caught sight of it. He at once resumed his clothes, remarking: "I expected to have a pretty lively night, but if they are as big as that I don't propose to get in with 'em."

The Caledonian Picnic.

The Caledonians will give their annual picnic at Treadway's Park Saturday, and the boys intend to have a grand time. There will be games of all kinds and elegant prizes will be given to successful competitors. Taers will be dancing, shooting, and everything to amuse both young and old. Tickets are for sale at Nasby's.

The California Team.

Adjutant-General Crosby has approved the reconstructed California team that is to come to Nevada in September to shoot for the Interstate trophy. The position of Captain of the team will be conferred upon Major A. F. Klose or Colonel Randlett, and the coach will be Colonel S. I. Kellogg.

Reese-Crocker.

The Supreme Court has reversed Judge King's ruling in the case of Reese vs. Jas. H. Kinkead, Executor of the estate of R. H. Crocker, and ordered the cause remanded for trial, with instructions to allow defendant a reasonable time to appear and answer plaintiff's complaint.

The Reason Why.

It is neither the result of luck nor magic. The reason why the White House clothing store is popular is because the proprietors, Abraham Brothers, understand the business; carry a large stock, deal in none but first-class goods and sell at bottom prices.

The Pistol in Humboldt.

A dispatch from Fort McDermitt Humboldt county, says that a man by the name of Muldoon was shot and killed at the Military Reservation by A. Shaw. The particulars of the homicide are not given.

The Squad of Tramps who attempted to capture a freight train at Lovelock's last Monday, and took a shot at the Conductor for refusing to permit them to ride, was arrested and tried before the Justice at Lovelock's and all discharged except the one who did the shooting. He gave his name as Flowers and was held to answer with bail at \$1,000.

For dressing the hair, and beautifying it when gray nothing is as satisfactory as Parker's Hair Balsam.

SICKNESS UP NORTH.

A Disease in the Northern Country Which Baffles the Skill of Physicians—A Remedy Suggested.

At Susanville and throughout the Northern country diarrhea has assumed the form of epidemic, and attacks both young and old. It seems to baffle the skill of physicians and is daily growing worse instead of better. It is very sudden in its attack and soon develops into what is familiarly known as bloody flux, carrying the sufferer off in a few hours. The many fatal results and rapid spread of the disease is causing the people to fear it as they would the Asiatic cholera. It appears to be spreading southward. At Millford it has broken out with such fury that there are hardly enough well people in the village to wait upon the sick. If it does not reach Reno before the heated season is over it will be a miracle. In the early days of California, in many localities, this disease prevailed to an alarming extent. Being in most instances without the reach of physicians the people were forced to resort to such remedies as nature and the country afforded. Tea made from the inside bark of the live oak, was used in many instances with good results. Blacking root were used, but the sovereign remedy of all, and that which every old Californian still swears by, is copious draughts of a strong decoction of Manzanita leaves. It is not offensive, is effective and leaves no evil results. The tree is an evergreen and grows in great abundance all over the western slope of the Sierras.

To California for Interment.

The remains of the late Mrs. Ambrose, wife of Dan Ambrose, of Susanville, was brought to Reno by the husband and yesterday taken by rail to California for burial. The lady was one of the victims of that dread disease, bloody flux, which prevails so extensively in that country at the present time.

Washoe Ore.

A car load of ore will be shipped this week from the Indian Boy mine, Washoe Valley. In the early days several promising argentiferous galena mines were located in that section and partially prospected. Indeed, the first smelting furnace in the State was erected at Galena, in that valley.

Railroad Liberality.

Superintendent Yerington has granted free transportation for the Inyo county mineral exhibit to Reno, and the C. P. folks will probably carry it on the same terms to San Francisco, where it is to be placed on exhibition during the coming Conclave.

Hope for Drunkards.

My husband had drunken habits he could not overcome until Parker's Ginger Tonic took away his thirst for stimulents, restored his energy of mind and gave him strength to attend to business. —Cincinnati Lady.

A shooting scrape occurred in Chinatown yesterday between two rival laundrymen. Four shots were exchanged, and the wash-house man of Virginia street, below the Odd Fellows building received a bullet in his left thigh. The fellow who runs the house next to Dean Wilson's stable, is in custody.

As cool and as quiet a retreat as there is in Reno, is Charley Becker's place on Commercial Row. At the bar is kept beer of any manufacture desired, and the weary will be provided with comfortable lodgings, in clean beds for 25 cents a piece.

E. Meyer has received a fresh in voice of tobacco and cigars, including several new brands never before offered in this market. A good cigar is a luxury and a poor one is an abomination. Meyer keeps the very best always.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 31-sw-1-yr.

The evenings are growing longer and much cooler.
